a) what address does the website use?

Khan Academy Website

<https://www.khanacademy.org/>"

b) What is the purpose of the site?

Education here comes without cost, open to everyone no matter where they are. Videos that teach come alongside tasks to try, mixed into custom paths for each learner. Math might follow science, then history weaves through economics later on. Learning moves at your pace, shaped by what you need next.

c) Who is the intended audience?

Anyone can use this place - kids just starting out, people teaching them, or someone picking up ideas later in life. From young readers to university folks, help fits every step along the way. Grownups looking to stretch what they know will find things here too.

d) Do you think that the site reaches its audience? Why or why not?

Yes, the site reaches its audience. The site is used by millions of users worldwide every day. The site has content in languages so people all around the world can use it. The site has videos and exercises. It also tracks your progress. This helps people who are learning at levels.

e) Is the site to you? Why or why not?

Yes, the site is very useful to me. The site explains things in a simple way. The exercises on the site help me understand things better. I can learn at my speed without feeling rushed.

f) Does this site appeal to you? Why or why not?

Yes, the site appeals to me. The site looks clean and simple. The site uses videos and graphics and interactive tools to make learning fun. The site is easy to navigate so I can find what I need quickly.

g) Would you encourage others to visit this site? Why or why not?

Yes I would tell others to visit the site. The site is free. It is a good site. The site has educational content. The site is really helpful for students who need help or who want to do better in school.

h) How could this site be improved?

The site could be better if it had things that people could do on it like talking to a teacher live or talking to other users. The site could also have content for different countries and schools so it could help people all around the world better.
